

User Story	L0 – Preparation	to	Week 44
Informal description	As a technician		
	... I would like to prepare for the implementation of my project		
	... so that the project is successful.		
Requirements according to the work order	Must • The work order received has been read and I have familiarized myself with the project. Initial questions that arose have been clarified with the teachers. • A planning tool has been selected that allows a project plan to be created using the agile method. • An initial version of the project plan, to be supplemented later, has been created in the planning tool. This project plan is to be regularly updated and supplemented during the course of the project. • <u>Documentation:</u> Selected planning tool, including reasoning, and an initial version of the project plan. Explanation of how the candidate intends to work with the planning tool on a daily basis.		
Tasks according to the work assignment			
• Read the work assignment carefully. • Select a planning tool • Create the project plan in the selected planning tool.
